

Certificate of Achievement

ANDRIAMAHAVITA Vonizara Norman Ludovic

has completed the following course:

AWS NETWORKING BASICS
AMAZON WEB SERVICES (AWS)

This course explored the fundamentals of AWS networking services and how to design cost-effective, secure, and high-performance cloud networks

1 weeks, 2 hours per week

Michelle Vaz
Managing Director, Training & Certification
Amazon Web Services (AWS)

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

ANDRIAMAHAVITA Vonizara Norman Ludovic

has completed the following course:

AWS NETWORKING BASICS **AMAZON WEB SERVICES (AWS)**

This course focused on an introduction to AWS Networking. As a fundamental level course, it provided an overview of available network services and common use cases using these services.

STUDY REQUIREMENT

1 weeks, 2 hours per week

LEARNING OUTCOMES

- Identify and understand the basic functions of each AWS networking service.
- Recognize the relationship between group AWS networking services by understanding the functions and business goals of each.
- Describe how networking concepts and protocols are implemented in AWS.
- Recognize ways to balance performance, cost, and availability, for different combinations of AWS networking services.

SYLLABUS

- Introduction to AWS Networking
- Networking concepts and protocols
- Network services and common use cases using these services
